GREAT Game
How to play the game

1. Select 1 person to facilitate the game and read the question cards. Select several people to be judges. Judges will work together to evaluate answers.

2. Form four teams of 1 to 5 people per team. Each team finds an object to use as a playing token. Alternatively, one player per team can be a “human token” standing on the board.

3. To start, one player per team throws a stone onto the target. The player has up to 3 turns to hit the target. The team with the highest number can select a row of their choice. The team with the next highest number selects second, and so on.

4. Each team takes turns throwing the stone onto the target and moving their token to the corresponding number of spaces. The facilitator selects and reads a question card aloud. If the team answers the question well according to the judges, they get another turn. If the team answers incorrectly, then other teams can answer.

5. In case the stone lands on the “all play fun” segment of the target, the team still moves and takes their turn. In addition, they take a ‘fun’ card and everyone on the team follows the instructions together. Or a team can choose to perform a short drama or activity with the audience instead.

6. The team that reaches the end of the row first wins. They get recognized as the GREAT champions!
The four sets of game cards for the Community Game are created for Standard A4 (8.27 x 11.69”) paper size and include a standard crop and bleed line. Scaled down and printed at Actual Size, the Flipbook will print on Standard Letter (8.5 x 11”).

2. **Four sets of cards** for each of the four groups listed above, each containing four themes (i.e. Health (Blue), Safety (including gender-based violence) (Red), Gender (Green), GREAT! (Yellow). The sets of cards are intended to be printed double-sided, so that the theme (in color) is printed on the front side of each question. The theme and question title are in matching colors.
